Education

BSc, CSE, Department of Computer Science and Engineering, University of Dhaka, Bangladesh.

Work Experience

2019 **Senior Data Scientist, August 2019 to present, Shohoz**, Dhaka.

My work at Shohoz.

- Built data pipelines in AWS, Azure (python) using message queue services such as Service bus/Event Hub/Kafka or machine learning pipeline services.
- Hands on exploratory data analysis of real user data using tools such as **pandas**, **PySpark**, **Scikit-learn**, **Tensorflow**, etc.
- Developed some fraud detection services e.g. automated syndicate detection in ride sharing.
- Developed an automated user profiling system for quest planning.
- Developed automated priority dispatching services.
- Improved upon clustering algorithm **kmeans++** for using on real data.
- Used data mining techniques for provider distribution/trend analysis/recommendation.
- Sprint/Kanban based agile development cycle on Jira/Azure DevOps.

2019 **Machine learning engineer and senior programmer, October 2018 to May 2019, Auleek**, Dhaka.

My work at Auleek.

- Developed an application in **python** that uses deep learning to identify different components of a floor-plan image.
- Worked on mesh generation/union and object placement in a floor-plan in Unity3d/C#.

2017 **RnD Software engineer, March 2017 to September 2018, Reve systems**, Dhaka.

My work at Reve.

- Developed a web application as part of a govt. project using **Java SpringBoot**, **Thymeleaf**, **JPA** along with vanilla JS (full stack). Project site: <http://evet.gov.bd/login>
- Built a multi-threaded **C++** application that captures all packets that are received in a network.

2016 **Software developer, Remote Job**, Threat Equation PTE Ltd., Singapore.

My work at Threat PTE.

- Used **django** framework to build a web dashboard (full stack).
- Used machine learning algorithms on server logs to predict whether it indicates an attack (if so, what type).

Pet Projects

Seeding in **Unsupervised learning**, *Research*, Python, I tried to improve the **k-means** clustering algorithm in this project.
clustering <https://github.com/proafxin/clustering>

Localizer	Object detection , <i>Personal project</i> , Python, This project is a deep learning based localization application. It can be trained using given images and detect the objects in test images. https://github.com/proafxin/Localizer
Improving collaborative filtering	Machine learning , <i>Research on recommender Systems</i> , C++, Python, In this project, I developed a recommender systems with F-1 score of almost 75%. This was part of my BSc. thesis.
Media recommender	Machine learning based web application , <i>Personal project</i> , Django, This is a web application that provides personalized feed based on user preferences and past history. https://github.com/proafxin/media-recommendation
Online library	Web application , <i>Personal project</i> , Dotnet core, This is a dotnet core MVC based web application for online library.. https://github.com/proafxin/library

Achievements and voluntary experience

- 2013 **Inter-University Programming Contest**, *North South University, Bangladesh*, Rank 9.
- 2012 **Inter-University Programming Contest**, *IUT, Bangladesh*, Rank 13.
- 2013 **ICPC**, *Dhaka Regional, Bangladesh*, Rank 17.
- 2012 **ICPC**, *Dhaka Regional, Bangladesh*, Rank 18.
- 2010 **Medal in math olympiad**, *Bangladesh Mathematical Olympiad*, National, Regional.
- 2009 **Medal in math olympiad**, *Bangladesh Mathematical Olympiad*, Regional.
- 2011 – 2015 **Trainer at math camps**, *Bangladesh Mathematical Olympiad*, National, Extension and IMO math camps.
- 2019 **Mathematical programming**, *Global Rank 132 on Hackerrank mathematics section*.

Publications

- 2020 **On Special Integer Sequences: Divisible, Lucas, Lehmer and Recurrent Sequence**, *Masum Billal*, Currently under discussion with Springer for publication.
- 2019 **Topics in Number Theory: An Olympiad Oriented Approach**, *Masum Billal, Amir Hossein*, Amazon, ISBN-10: 1719920311.
- 2015 **Similarity Aggregation for Collaborative Filtering**, *AIST Conference*, Sheikh Muhammad Sarwar, Masum Billal, Mahmudul Hasan, Dimitry I. Ignatov.
http://link.springer.com/chapter/10.1007/978-3-319-26123-2_23
- 2014 **A Nice Theorem in Multiplicative Functions**, *Eureka, The Cambridge University Mathematical Society*, Issue 63, Masum Billal.
- 2012 **Exponent GCD Lemma**, *Mathematical Reflections*, Issue 6, Masum Billal.
- 2016 **10th Bangladesh Mathematical Olympiad: Selected Problems and Solutions**, *Bangladesh Math Booklet*, 2015.

Interests and Hobbies

- Research Optimizing algorithms or finding new ones. Studying on topics I am interested in for interesting results. Mathematics, Algorithms, Cryptography, Machine Learning etc.

- Programming Creating and solving problems. Proposed some problems for Hackerrank and some inter university contests.
- Mathematics Finding new results and creating or solving new problems.
- Gaming Playing Dota 2, Assassin Creed Origins etc.
